

Lebo and Gogo's Tea Party - updated image received from Liz Sparg 3 Nov

I have made the changes you requested and also a couple of other small changes. (Sorry, I couldn't help myself!)

I have listed them below and have uploaded the new images here:

<https://www.dropbox.com/s/ugf2go95cey8r24/Lebo%20and%20Gogos%20Tea%20Party%20edited%20illustrations.zip?dl=0>

If I have overstepped on any of these, please do whatever you think is best for the book. :-)

- 0. Cover - I have removed the white background from this illustration I don't think it looks good on the cover. I know the cover is Sashni's department but I don't think she knew how to remove the white background completely. I've also fixed the faces slightly, where the mouths looked weird and removed Lebo's hair away from Gogo's mouth. You should be able to simply relink the file in Indesign to the new one.
- Spread 1 - *The right hand side looks like it was distorted/squished in the layout* - please replace by placing the file into Indesign again and make sure the image ratio is correct. The illustration itself has not changed but I am sending the file again anyway as it has the correct layout and image ratio to place into Indesign.
- Spread 2 - I have made a slight colour adjustment and cleaned the grey lines on the edges of the scanned page that were visible. You can just relink to the new file. File named 2-brighter.
- Spread 4 - Please replace spread 4 with the new file named 4.v2 - it has the fixes to the faces that I did for the cover. You can just relink to the new file.
- Spread 5 - This is the car spread with the added colour. Please "place" new file into Indesign as file dimensions have changed and now matches the page dimensions. (Don't just re-link.)
- Spread 7 - Added colour to thought bubbles - you can just relink to new file named 7v2
- Spread 8 - Added colour to thought bubbles - relink to 8v2
- Spread 10 - The wool was not on the coffee table, it was kind of in the air. I have moved it now. I also changed the angle of Gogo's head and slightly changed her expression, so it is not an exact replica of spread 6 where she is on the couch alone - you can relink, new file is 10v2
- Spread 11 - I made some edits to this one. But now I'm not sure which I prefer. New file is 11v3. You can use either the old or the new one - whichever you think works best.
- Spread 12 - I made quite a lot of edits this one as it was really rushed on the day and the characters didn't look consistent to me. I also had forgotten to add the plate of cookies and chair behind the teddy... *Please replace with this new version named 12v3-final2*. Don't re-link but place new file rather as the image dimensions I think have changed to match the page.

If possible, could you send me the low res of the new version so I can check there is no image distortion.
